

# Nathan Kowalski

Shopify Specialized Full-Stack Developer

nathankowalski.io@gmail.com | 415.570.3663 | nathankowalski.io

## Summary

Shopify specialized full-stack developer with 15+ years of experience building and optimizing web and e-commerce experiences. Expert in Shopify theme and storefront development, modern front-end frameworks, analytics, and A/B testing. Leverages, but not reliant on, AI and automation tools to accelerate delivery. Focused on scalable, data-driven solutions that improve conversion and revenue.

## Experience

### Senior Full-Stack Developer

Smashtech | *December 2019 - Present* | San Diego, CA

- Led Shopify theme development using Liquid and Alpine.js, product configuration, Recharge subscriptions, Claude design for CRO.
- Implemented A/B testing, analytics, and other integrations within Shopify to manage subscriptions and optimize conversion and revenue.
- Built critical web platforms using React, React Router, and TypeScript in support of CRM and marketing initiatives.
- Developed and maintained applications across front end and back end using Angular, Node.js, REST APIs, MongoDB, and Payload CMS.
- Implemented CI/CD and deployment automation across environments using AWS and CircleCI.

### Web Developer II

ESET North America | *January 2019 - December 2019* • 1 year | San Diego, CA

- Maintained and optimized e-store product pages and checkout funnels using AngularJS and PHP/NetSuite.
- Implemented marketing and analytics tracking across platforms using Adobe Analytics, Google Analytics, and Eloqua.

### Senior Web Developer

American Advisors Group | *August 2018 - December 2018* • 5 months | Irvine, CA

- Built WordPress templates and custom fields using PHP to enable business teams to update front-end content.
- Defined collaboration workflows and tooling with design teams using InVision.
- Implemented Google Tag Manager and Google Analytics event tracking.
- Improved site accessibility and compliance through targeted fixes.

### Senior Web Development/Designer

Experian Consumer Services | *May 2013 - August 2018* • 5 years 4 months | Costa Mesa, CA

- Delivered front-end marketing experiences aligned to stakeholder requirements and business objectives.
- Managed multiple domains across environments using Git and in-house CMS tools.
- Built reusable front-end components and A/B testing templates using Adobe Target.
- Contributed to global rebrand with new codebase, SASS framework, and living style guide.
